DYNAMICS OF BIBLICAL CHANGE FOR LEADERS

JANUARY – JULY 2021

Course Description

The way you counsel others is determined by how you understand God, yourself, other people, life's pressures, and, of course, the process of change. *Dynamics of Biblical Change* addresses these things and more. It describes how Christ's past grace, present grace, and future grace speak to our hearts and change the way we live our daily lives.

This course is about people and the way they (and we) face the troubles of life. It is about dealing with our inner struggles and changing into the likeness of Christ. Through case studies, class lectures, assigned readings, and Scripture, you'll explore these very practical ministry questions. Two self-counseling projects also help to make all this first hand, as they apply the concepts learned in class.

Lecturer

David Powlison (1949–2019) served as CCEF's executive director, as a faculty member and as a senior editor of the *Journal of Biblical Counseling*. He held a PhD from the University of Pennsylvania and an MDiv from Westminster Theological Seminary.

David wrote extensively on biblical counseling and on the relationship between faith and psychology. His books, *Seeing with New Eyes*, and *Speaking the Truth in Love*, probe the implications of Scripture for how to understand people and how to counsel. *The Biblical Counseling Movement: History and Context* explores the background and development of CCEF's mission. David's later books include *God's Grace in Your Suffering*, *How Does Sanctification Work?*, *Good and Angry*, and his final work, *Safe and Sound*, which was published posthumously.

CCEF

For over 50 years, CCEF (The Christian Counseling and Educational Foundation - www.ccef.org) have been setting the pace in biblical counselling.

Biblical Counselling UK have partnered with CCEF to offer their online 12-week *Dynamics of Biblical Change* course at a slower pace to make it easier for those in church leadership to take the course.

Each "week" of the course includes a two- to three-hour videoed lecture, assigned reading and interaction with the other students through an online discussion board (4% of final grade). Progress is assessed by written assignments (due dates are in the course schedule) and a final exam.
